EB No. 1393

10 July 1986

## HEADQUARTERS COMPOUND PARKING UPDATE

1. The second phase of South Lot construction, affecting the former Lanes "D" through "H," is scheduled for completion on 12 July 1986. All South Lot carpools consisting of two riders will be reissued parking permits with a new row and space designation to be effective 14 July 1986. New permits will be distributed through component support offices.

2. On 14 July 1986 construction is scheduled to begin on the third phase of the South Lot, affecting the former Lanes "H" through "L." Employees holding South Lot general lane permits for Lanes "G" through "K" must park in West "A" Lot or the Parking Deck until further notice as their permits no longer will be valid. However, South Lot general lane permits for Lanes "L" and "M" remain valid, but permit holders are cautioned not to park in the new "L" or "M" Rows in the completed second phase of South Lot. The completed areas of South Lot have been redesigned so that each row of parking spaces is individually designated, rather than the old system of two rows of spaces forming one lane. Due to the segmented construction schedule, South Lot temporarily will have both LANES "L" and "M" (old section) and ROWS "L" and "M" (new section).

3. On 14 July 1986 the contractor plans to start construction on the first phase of the North Lot. The area will involve the Northeast Entrance. This will include construction on the roadway paralleling the Headquarters Building. Construction will be in segments and is projected to be completed by 15 October 1986.

4. In mid-September 1986 work is scheduled to begin on the second phase of North Lot and will affect Lanes "A" through "F." Employees parking in these areas must use the Parking Deck or West "A" general parking lot during this phase of construction, unless otherwise notified. The contractor projects approximately 3 weeks per phase to complete Phases II, III, and IV. The highlighted areas on the attached map show Phases I and II of North Lot construction.

5. As construction progresses, the Parking Office, Facilities Management Division, Office of Logistics (FMD/OL) will make every effort to keep Agency employees informed by posting message boards at the various entrances and exits of the Headquarters Building. The Parking Coordinator, FMD/OL can be reached on extension 26550 (nonsecure) or 337860 (secure) for any additional clarification.
